Dunbar, Scotland, Feb. 26.—An "arson squad" of militant suffragettes today burned to the ground the historic parish church of the village of Whitehill, near here. A large quantity of suffrage literature was left strewn about the scene.

The church was erected in the year 1297. A. D. and contained many relics of the battle in which the Scots were routed by Oliver Cromwell's forces in 1650. In the vicinity is the famous battleground of Dunbar, where the English totally defeated the Scots in 1296, and caused John Balliol to give up the crown of Scotland.

STALWART FOR THE LIBERAL CAUSE

W. Mahon, of Cobalt, Gave a Fine Address on Northern Ontario.

E. M. MacDonald, of Pictou, N. S. Deals Splendidly with Dominion Questions.

A splendidly filled hall greeted the speakers at the meeting last night of the Liberal Club in their rooms in the Sun Life building. Ald. T. B. McQuesten, president of the club, and chairman of the meeting, said in his opening remarks that he was pleased to have as a speaker of the Liberal Club, a man of the calibre of Mr. Mahon, who was especially pleased to see so many ladies present. Mr. Michael Clark had, he said, inaugurated the Women's Liberal Federation, and they would do a great deal towards the strengthening of the Liberal party's fighting strength.

Referring to Mr. Mahon, one of the speakers, Mr. McQuesten said that he was one of the strongholds of Liberalism in Ontario.
"We, as Liberals," said he, "have not enough stability to vote just as we are told. We will not run up to the bar just as we are commanded to do. We are too susceptible to our own consciences."

J. W. Mahon, of Cobalt, President of the Temiskaming Canadian Club, who gave such an inspiring address at Tuesday night's annual meeting of the local Canadian Club, was the next speaker.

He said that it was the first visit to Hamilton in a political capacity, and he expressed a great privilege to address so large and representative an audience. After a few humorous remarks, he said that it was a matter of great regret that Southern Ontario should not recognize the interests of Northern Ontario, which the latter deserves. The present Government, he said, were excluding from their policies the needs of Northern Ontario. In order to aid their exchequer in Queen's Park, Toronto, Mr. Mahon said that the Government should not ignore the needs of Northern Ontario, but should recognize the needs of the whole country. He said that the Government should not ignore the needs of Northern Ontario, but should recognize the needs of the whole country. The usual jurisdiction of the courts? He did not want to go into details as to what he had been kept open for consideration purposes, but if it was a commercial enterprise then taxes should be paid. He would say to the T. & N. O. Railway Company, "Keep out of any political party."
Secondly came the reference of the railway to the Northern Ontario. It was dotted over with such; the vacant lots were devoid of sidewalks and a lot of the houses were in a state of getting rid of these lots under the Veterans' Grant Act, and the building of sidewalks before the settlers arrived.
Thirdly, a little more encouragement should be given to the prospector and the miner. The Liberals had already obtained for the latter a working day of eight hours—whether that measure be for good or evil. In concluding the speaker stated that the Liberal party should again take an strenuous fight for the vision of a Greater Ontario, which had unfortunately been lost sight of recently and his prayer was that they should build a lasting monument to the virility, statesmanship and breadth of vision that there was in Ontario.

E. M. MACDONALD, M. P.
The next speaker was E. M. MacDonald, M. P. for Pictou, N. S.

His first words were those of congratulation to Mr. Mahon for the fine speech he had made, which was both instructive and interesting. He said that the speech he was about to make was his first political speech in Hamilton. He had represented, in the Dominion Parliament, for sixteen years, a miners' and steel industry constituency, and on the ground of the latter, considered he could speak to Hamiltonians on an equal footing. The Liberal party had no need for apologies for their accomplishments. It was during the fifteen years of Sir Wilfrid Laurier's regime that Canada first came into her own. It was the first time that the working man learned to be proud of his country, and not under the influence of capitalism. In the years since the Liberal Government were in power their Finance Minister could negotiate the purchase of \$100,000,000 of the Transcontinental railway. The present Finance Minister could not negotiate the purchase of \$100,000,000 of the Transcontinental railway.
